

CC Moore Team Spain success.

The Regional Final of Carpfishing (Madrid) was held during the 16th and 17th of October.

From this competition the top four duos are taken forward to represent the region of Madrid in the next National Championship of Spain.

We are very pleased to report that two pairs from CC Moore Team Spain secured first and the second position in this championship in the shape of Arturo Carrasquilla and Enrique Cid, and Ismael Gonzalez and David Flores.

In the Madrid final both couples used spoding and PVA bag tactics incorporating Active Feast, Hemp pellets, White Haze, Tiger nuts and Hemp Seed from CC Moore and found this loose feed combination created a potent cloud and carpet of food particles that fish were constantly attracted to.

Their bait choice for the final was the superb N-Gage XP 14 mm Shelf Life which was tipped off by a piece of Enterprise Tackle Pop Up Sweetcorn. Throughout the event the successful rig used was the Blow-Back Rig.

The minimum weight of the carp which were scored in the competition was 5kg.

During the event both teams had a tough battle to succeed but worked very hard and were rewarded with their final results which see them entered in the National Championships of Spain.
