

CC Moore Team wins in Ukraine

Hot on the heels of the recent CC Moore Teams' success at the Carp Match on Sumbar Lake in Croatia, our colleagues in Ukraine have also recorded a convincing win at the international competition which took place at the end of April in their home country.

Fishing for the CUP OF MEDVEJKA 2010 (In Ukraine Donetsk region) **CC Moore Team – Россия** left the field standing by finishing the 4 day event with a winning weight of 244.82 kg; more than 80kg ahead of the second placed team.

Using our successful Meteor and New N-Gage XP boilies, the team also fed a carefully formulated loose feed mix to attract the fish to their swim where the successful traps were set.

Our warmest congratulations go to team who has helped cement CC Moore & Co Ltd as the name that many team event anglers recognise as the premier supplier of successful carp baits.

Many congratulations

Ian Moore
