Vitamins

Vitamin A – 120,000iu/kg

Vitamin B2 – 60mg/kg

Vitamin B6 – 28mg/kg

Vitamin B12 – 123mg/kg

Niacin – 223mg/kg

Choline – 8.4g/kg

Amino Acids (naturally occurring)

Alanine – 5.1%

Arginine – 3.4%

Aspartic Acid – 7.5%

Glutamic Acid – 10.8%

Glycine – 4.9%

Histidine (*essential amino acid*) – 7%

Isoleucine (*essential amino acid*) – 3.5%

Leucine (*essential amino acid*) – 6.9%

Lysine (*essential amino acid*) – 5.7%

Methionine (*essential amino acid*) – 0.7%

Phenylalanine (*essential amino acid*) – 3.7%

Proline – 4.1%

Serine – 2.8%

Threonine (*essential amino acid*) – 3.3%

Tyrosine – 1%

Tryptophan (*essential amino acid*) - 0.6%

Valine (*essential amino acid*) – 4.9%

Derived from Argentine Porcine liver, this liver is hydrolysed to improve its digestibility. It then undergoes stringent veterinary tests in Argentina, U.K and Germany en route to us.

It is highly nutritious and can often have a protein value in excess of 80%. This product is pharmaceutical grade, and is used in the UK Pharmaceutical industry as well as being used as a human food ingredient in some eastern European countries.
