

## Big early season Barbel falls to XXX

We have just been sent a report of a huge Barbel caught by Stoke based angler Alan Cornwell using our ever popular Odyssey XXX boilie and Feedstim XP combination and wanted to share it with you.

Alan mailed us to say:

*I thought I'd just drop you a line to let you know of my latest Barbel catches from the River Dove in Staffordshire as a mate of mine, Martin Head, said you would be interested seeing them as they were all caught using your excellent bait.*

*The week starting July 18th saw me bank Barbel of 11lbs and 12lbs and a monster of 15lbs 13oz, shown below, on your Odyssey XXX boilies coated in Feedstim XP liquid additive which I have been using regularly for the last 12 months.*

*I really have found it consistently reliable for good catch returns in all temperatures and hope you will be able to use the pictures on your website.*

Well done Alan we are certainly very pleased to hear of your superb result and are glad to be able to use the pictures of what must be one of the biggest reported Barbel of the season so far. There is no doubt that if you're looking for a great all-round bait which Carp, Barbel and other species can't resist then Odyssey XXX with a little coating of Feedstim XP is the perfect option!
