

Carper's World – open for business

Carper's World opened its doors in 2010 the shop is based in Rugby Warwickshire. We specialise in carp tackle and equipment, and stock a good range of CC Moore's quality baits.

We offer everything for the beginner to the more experienced angler from standard carp gear through to cutting edge products supplied by the leading manufacturers; basically everything for the carp angler enthusiast.

Carper's World is owned and run by Kevin Furniss who is a dedicated carp angler and has been fishing for many years. Kevin has an extensive knowledge of the fishing industry and also good product knowledge, Therefore he is in touch with today's modern carp angler and is able to extend this to help all of our many customers.

To help out on the weekend, young up and coming angler Jake Wildbore will be in the shop to offer his help and advice. At 20 years old, Jake has already appeared in various magazines as well as TV programs such as Thinking Tackle. Since being crowned BYCAC champion in 2008 he has really improved his angling and has managed to catch numerous 30lb+ fish from a variety of waters whilst also managing to pick up a very creditable second place in the prestigious British Carp Angling Championships in 2010.

If you're looking for a good supply of CC Moore's quality products in the west midlands area, be sure to check out Carper's World on www.carpfishingequipment.co.uk or phone 01788 574301.
