

Liam Clare - The student's a class act!

Over the last 6 weeks since starting to use our Odyssey XXX boilies, 17 year old hotshot Liam Clare has caught an impressive tally of 19 fish from his pressured club water in the North West of England. The talented student has banked fish up to 31lb 12oz, being the biggest fish in the lake and his first UK 30, twelve 20's to 27lb 12oz and 6 doubles to 19lb.

All of these fish have been caught from the same local club water, 15 of which were all caught in May making it Liam's best ever month's fishing. Liam told us "I'm sure the bait had something to do with this run of results".

"I was fishing 24 hour sessions at a time twice a week and maybe a quick evening session to try and catch that extra fish or two in between. The bait I used was 15mm Odyssey XXX boilies fished snowman style with either an Odyssey XXX cork ball pop-up soaked in Feedstim XP, or a white or yellow pop-up from the CC-Moore range. These baits always seemed to be the most successful out of those I tried so when I found a successful method..... I stuck with it as the fish just can't get enough of it"!

"These were often cast to the back of weed beds or clear patches in the weed with a scattering of around 50 -70 baits per fish. I did my baiting up with a throwing stick as this gives a wider area of bait and gets the carp searching for food and makes them easier to catch."

Well done on your great results Liam – keep up the good work!

Here are a few of the cracking fish Liam has caught during his 6 week campaign on a pressured venue where many far more experienced anglers are fishing- without the same level of success.
